

18650 3.7V 2200mAh Lithium-Ion Rechargeable Cell

Slug: 18650-3-7v-2200mah-lithium-ion-rechargeable-cell

TECHNICAL SPECIFICATIONS & SUMMARY

[Lithium Battery Cell] Good Quality ICR18650 3.7V 2200mAh Li-Ion Rechargeable Battery Cell The ICR18650 3.7V 2200mAh Lithium-Ion Rechargeable Battery Cell is a cylindrical rechargeable battery designed for a wide range of portable electronics and DIY battery-pack applications. With a nominal voltage of 3.7V and a capacity of 2200mAh, it is suitable for battery packs, power banks, portable lighting, electronics projects and other compatible devices. Cell colour and printing may vary from the images shown. The cell will be shipped randomly according to available stock. Key Features Nominal voltage: 3.7V Capacity: 2200mAh Rechargeable lithium-ion cell 18650 cylindrical form factor Flat-top terminal High energy density High working voltage Long cycle life No memory effect Low self-discharge Good capacity and voltage consistency Lightweight and compact Suitable for single-cell and multi-cell battery packs Cell colour and printing may vary depending on stock Technical Specifications Battery Type: Lithium-Ion (Li-Ion) Model/Format: ICR18650 Cell Size: 18650 Nominal Voltage:
