

1M Nickel Strip 2P 0.12 * 27Mm Nickel Strip For 18650 Lithium Battery Welding Tape

Slug: 1m-nickel-strip-2p-0.12-27mm-nickel-strip-for-18650-lithium-battery-welding-tape

TECHNICAL SPECIFICATIONS & SUMMARY

[Nickel Strip] This product directly from raw materials of high purity nickel plate rolling, more than 99.96% of nickel content, with a guarantee of high purity nickel, low-resistance (15% lower than the traditional process so), to avoid the traditional craft materials in the smelting process of adding resulting decrease of nickel with purity, resistance increases the defect, this method does not change the chemical composition of energy nickel plate. Specifications: Material: Nickel-Plated Steel Optional Type and Size: 2P Thickness: 0.12mm Width: 27mm Spacing: 20.25mm Length: 1m/3.2ft Color: Nickel Package Includes: 1 x 1M Nickel Strip 2P 0.15 * 27Mm Nickel Strip For 18650 Lithium Battery Welding Tape
