

1S 3.7V Li-ion 1MOS 2A Battery Protection Board

Slug: 1s-3-7v-li-ion-1mos-2a-battery-protection-board

TECHNICAL SPECIFICATIONS & SUMMARY

[Lithium Battery Protection Board] The 1S 3.7V Li-ion 1MOS 2A Battery Protection Board is designed for single-cell lithium-ion batteries. It provides essential overcharge, over-discharge, and overcurrent protection to ensure battery longevity and safety. The board supports up to 2A of continuous current, making it suitable for low-power applications. Its single MOSFET structure ensures efficient power control. Compact and lightweight, it is ideal for portable electronics. Easy to integrate into battery packs, it enhances battery reliability. Features: Style 2A 1MOS Overcharge Protection Over-discharge Protection Overcurrent Protection Single MOSFET Design Compact and Lightweight Low Standby Power Consumption Easy Integration Package Includes: 1 x 1S 3.7V Li-ion 1MOS 2A Battery Protection Board
