

2 Inch 4 Ohms 5Watt Internal Magnet Speaker with Frame

Slug: 2-inch-4-ohms-5watt-internal-magnet-speaker-with-frame

TECHNICAL SPECIFICATIONS & SUMMARY

[Speakers] 2-Inch Internal Magnet Speaker with Frame - 53x29x23mm 4 Ohm 5W The 2-Inch Internal Magnet Speaker with Frame is a compact and efficient audio driver designed for DIY electronics, portable audio devices, alarms, toys, embedded systems, and other space-constrained applications. Featuring an internal magnet design and durable frame construction, this speaker provides clear and balanced sound output while maintaining a compact footprint. With dimensions of 53x29x23mm, 4 Ohm impedance, and a 5W power rating, this speaker is suitable for small amplifier projects and electronic devices requiring a compact audio solution. The mounting frame makes installation convenient in custom enclosures and equipment. Key Features 2-Inch compact speaker design Internal magnet structure 4 Ohm impedance 5W power rating Durable metal frame construction Clear and balanced sound output Compact and space-saving design Easy mounting with frame and screw slots Suitable for low and medium-power audio applications Ideal for DIY and OEM applications Technical
