

45mm 1.75-Inch 4Ohms 3W Internal Magnet Speaker with Frame

slug-45mm-1-75-inch-4ohms-3w-internal-magnet-speaker-with-frame

TECHNICAL SPECIFICATIONS & SUMMARY

[Speakers] 45mm Internal Magnet Speaker with Frame - 4 Ohm 3W 45x23x23mm The 45mm Internal Magnet Speaker with Frame (1.75-Inch) is a compact and efficient audio driver designed for DIY electronics, portable audio devices, multimedia systems, toys, alarms, intercoms, and embedded audio applications. Featuring an internal magnet structure and durable mounting frame, this speaker provides clear and stable sound output while maintaining a compact form factor. With a compact size of 45x23x23mm, 4 Ohm impedance, and 3W power rating, this speaker is suitable for small amplifier projects and electronic devices where space is limited. Its built-in frame allows convenient installation in custom enclosures, panels, and electronic products. Key Features 45mm (1.75-Inch) speaker size 4 Ohm impedance 3W power rating Internal magnet design Durable mounting frame Compact 45x23x23mm construction Clear and stable sound output Lightweight and space-saving Suitable for low-power audio applications Easy to install in custom enclosures Ideal for DIY, repair and OEM
