

45mm (1.75-Inch) Internal Magnet Speaker 2 Ohms 10W Full Range Audio Speaker

slug: 45mm-1-75-inch-internal-magnet-speaker-2-ohms-10w-full-range-audio-speaker

TECHNICAL SPECIFICATIONS & SUMMARY

[Speakers] 45mm (1.75-Inch) Internal Magnet Speaker - 2 Ohm 10W Full Range Audio Speaker The 45mm (1.75-Inch) Internal Magnet Speaker is a compact and powerful audio driver designed for DIY electronics, portable speakers, multimedia devices, toys, embedded audio systems, and custom speaker enclosures. Featuring a 2 Ohm impedance and 10W power rating, this speaker provides strong audio output when paired with a compatible amplifier. Its internal magnet design provides a compact profile while maintaining efficient magnetic performance. The built-in mounting frame makes installation easy in custom enclosures and electronic devices. With its 2 Ohm low-impedance configuration, this speaker is suitable for compatible Class-D amplifier modules where higher output power is required from a compact speaker driver. Key Features 45mm (1.75-Inch) compact speaker 2 Ohm impedance 10W power rating Internal magnet design Full-range audio reproduction Compact and lightweight construction Built-in mounting frame Clear and powerful sound output Easy to install
