

5V 2A DC Power Supply Adapter - High-Quality Regulated Charger with 1-Year Warranty

Slug: 5v-2a-dc-power-supply-adapter-high-quality-regulated-charger-with-1-year-warranty

TECHNICAL SPECIFICATIONS & SUMMARY

[Adaptor Power Supply] The 5V 2A DC Power Supply Adapter is a premium-quality regulated SMPS charger designed to provide stable and reliable 5V DC output at 2 amps for a wide range of electronic devices. With a wide AC input range of 100-240V, this adapter works safely with Indian and international power supplies. Built using advanced switch-mode power supply (SMPS) technology, it offers high efficiency, low ripple, and low interference, ensuring safe operation of sensitive electronic circuits. The adapter is equipped with short-circuit, over-voltage, and over-current protection, protecting both the connected device and the power supply from electrical faults. Its compact and lightweight design makes it perfect as a replacement or spare charger for USB devices, development boards, networking equipment, cameras, LED controllers, and embedded systems. Backed by a 1-year warranty, this charger delivers long-lasting and dependable performance for home, office, and professional use. KEY FEATURES Output Voltage: 5V DC (Stable Regulated Output) Output Current: 2A
