

6S 20A Li-ion Lithium Battery 24V 18650 Charger Protection Board Module

slug: 6s-20a-li-ion-lithium-battery-24v-18650-charger-protection-board-module

TECHNICAL SPECIFICATIONS & SUMMARY

[Lithium Battery Protection Board] 6S 20 A Li-ion Lithium Battery 24V 18650 Charger Protection Board Module is a small PCB mount Li-ion Lithium Battery charger protection module. This small battery charger protection module comes with various features like Short circuit protection, Overcharge protection, Over-discharge protection, Overcurrent protection. It is very easy to install and convenient to use in all your DIY portable projects. Features: Battery protection board is mainly for the rechargeable battery (generally refer to as lithium battery) to protect the role of the integrated circuit board. Lithium battery (rechargeable) needs protection, which is determined by its own characteristics. As the material of the lithium battery itself determines that it cannot overcharge, overflowing, short-circuiting, and super high temperature. Charging and discharging of lithium battery will always follow a protective plate with a sampling resistance and a current safety device. Instantaneous discharge current: 25A Charging voltage: 25.5V Charging current: 20 A (MAX) Overcharge detection voltage:
