

902030 3.7V 600mAh LiPo Rechargeable Battery for Bluetooth Speaker, RC Drone, Toys, DIY & Robotics

TECHNICAL SPECIFICATIONS & SUMMARY

[LiPo Cell] The 902030 3.7V 600mAh Lithium Polymer Battery is a lightweight rechargeable battery designed for small electronic devices and hobby projects. With a 3.7V nominal voltage and 600mAh capacity, it provides stable and reliable power for portable electronics. Its slim pouch design allows easy installation in compact devices such as Bluetooth speakers, RC drones, toys, GPS trackers, IoT devices, and robotics projects. Lithium Polymer batteries offer high energy density, low self-discharge, and long cycle life, making them ideal for modern electronic devices and DIY applications. Key Features

Nominal Voltage 3.7V Capacity 600mAh Compact lightweight LiPo battery Rechargeable lithium polymer cell High energy density Stable discharge performance Suitable for portable electronics Ideal for DIY electronics projects

Technical Specifications

Parameter	Specification
Model	902030
Battery Type	Lithium Polymer (LiPo)
Nominal Voltage	3.7V
Fully Charged Voltage	4.2V
Capacity	600mAh
Cell Type	Pouch cell
Charging Method	CC-CV
Rechargeable	Yes
Applications	

UNIT PRICE (EX. GST)

Rs. 99
