

BTI-15 15A Panel Mount Terminal Connector - Red & Black Pair

slug-bti-15-15a-panel-mount-terminal-connector-red-black-pair

TECHNICAL SPECIFICATIONS & SUMMARY

[Terminal Connector] BTI-15 15A Panel Mount Terminal Connector - Red & Black Pair The BTI-15 15A Panel Mount Terminal Connector is a high-quality electrical terminal designed for secure power connections in electronic equipment, power supplies, test instruments, and DIY projects. This terminal connector is supplied as a Red and Black pair, allowing easy identification of positive and negative connections. The panel-mount design allows the terminals to be securely installed through an enclosure or control panel. The terminals are made from durable Nylon/ABS material and provide reliable electrical insulation and mechanical strength. With a rated capacity of 15A at 250V AC, the BTI-15 is suitable for a wide range of power connection and distribution applications. Key Features High-quality BTI-15 panel mount terminal connector Red and Black terminal socket pair Rated for 15A at 250V AC Designed for panel mounting Suitable for power source connections Durable Nylon/ABS construction Low contact resistance High insulation resistance Compact and reliable design
