

DC Power Connector Male 5.5mm x 2.1mm Barrel Plug

Slug: dc-power-connector-male-5-5mm-x-2-1mm-barrel-plug

TECHNICAL SPECIFICATIONS & SUMMARY

[Power Connector] DC Power Connector Male 5.5mm x 2.1mm Barrel Plug 5.5x2.1mm DC Barrel Plug - Male Power Connector - Solder Type - Black Housing - DIY & Power Supply Applications The DC Power Connector Male 5.5mm x 2.1mm Barrel Plug is a reliable and easy-to-use connector designed for DC power supply, CCTV systems, LED lighting, routers, adapters, Arduino projects, and DIY electronics applications. Compatible with standard 5.5mm outer diameter and 2.1mm inner diameter DC barrel jacks, this connector provides a secure and stable power connection for low-voltage DC devices. The connector features a solder-type terminal design, allowing wires to be permanently connected for a durable electrical connection. The outer shell unscrews easily to expose the solder terminals and built-in strain relief, helping prevent cable damage and improving long-term reliability. Made from high-quality plastic and metal materials, this DC barrel plug is suitable for 6V to 30V DC applications up to 1A, making it ideal for custom power cables, electronics repairs, prototyping, and power
