

DPST on-off Rocker Switch with Light [RED] -16A [high Quality] (4pin)

Single DPST on-off rocker switch with light red 16A high quality 4pin

TECHNICAL SPECIFICATIONS & SUMMARY

[Mechanical Switches] 16A 250V AC DPST ON-OFF Rocker Switch Panel Mount (Non-Illuminated) Heavy-Duty 16A Rating - DPST Configuration - 4-Pin Design - Panel Mount - Reliable Power Switch The 16A 250V AC DPST ON-OFF Rocker Switch is a premium-quality non-illuminated power switch designed for reliable ON/OFF control in electrical and electronic equipment. Featuring a Double Pole Single Throw (DPST) configuration, this switch can simultaneously switch two independent circuits, making it ideal for AC-powered appliances, industrial equipment, and automation systems. Designed with a snap-in panel mount mechanism, the switch installs quickly without the need for screws or nuts. The rocker is clearly marked with "I" (ON) and "O" (OFF) for easy operation and switch position identification. Rated for 16A at 250V AC, this heavy-duty rocker switch is suitable for home appliances, power supplies, industrial machinery, automation systems, water dispensers, coffee machines, treadmills, automotive accessories, marine equipment, and DIY electronics projects.
