

IMP 29V 5A Electric Vehicle Battery Charger for 24V Battery Li-ion

Slug: imp-29v-5a-electric-vehicle-battery-charger-for-24v-battery-li-ion-or-lifepo4

TECHNICAL SPECIFICATIONS & SUMMARY

IMP 29V 5A Electric Vehicle Battery Charger for 24V Battery Li-ion The IMP 29V 5A Electric Vehicle Battery Charger is a premium-quality charging solution specially designed for 24V lithium-ion battery systems used in electric vehicles, e-bikes, scooters, and battery-powered equipment. Delivering a stable regulated output of 29V with 5A charging current, this charger ensures fast, efficient, and safe charging while protecting your valuable battery pack. Built with advanced SMPS technology, this charger offers excellent energy efficiency, low heat generation, and reliable long-term performance. It is equipped with comprehensive protection features including over-voltage, over-current, short-circuit, and overheating protection, ensuring maximum safety for both the charger and the battery. The charger's compact, lightweight, and portable design makes it ideal for home charging, workshop use, and on-the-go charging needs. Designed for durability and performance, the IMP charger helps extend battery life and maintain stable charging cycles. Perfect for use in electric bicycles, electric scooters, mobility
