

Insulation Filament Tape 25mm 50 meters

Slug: insulation-filament-tape-25mm-50-meters

TECHNICAL SPECIFICATIONS & SUMMARY

[Filament Tape] Insulation Filament Tape 25mm x 50 Meter High Strength Reinforced Adhesive Tape High Tensile Strength - Strong Adhesive - Tear Resistant - Ideal for Electrical & Industrial Applications The Insulation Filament Tape (25mm x 50 Meter) is a premium-quality, filament-reinforced adhesive tape designed for applications requiring exceptional strength, durability, and reliable adhesion. Reinforced with cross-woven fiberglass filaments, this tape offers excellent tensile strength, making it ideal for bundling, securing, reinforcing, and insulating cables, cartons, pipes, and various industrial components. Its pressure-sensitive adhesive ensures a firm bond on a wide range of surfaces while maintaining excellent resistance to tearing, stretching, and wear. The tape is widely used in electrical work, packaging, logistics, manufacturing, automotive industries, and general repair applications. With a 25mm width and 50-meter roll length, this tape provides long-lasting performance for both professional and DIY use. Features Premium quality filament-reinforced adhesive tape Strong
