

PCB Mounting type Single cell 18650 Battery Holder

Slug: pcb-mounting-type-single-cell-18650-battery-holder

TECHNICAL SPECIFICATIONS & SUMMARY

[Lithium Battery Holder] A battery holder is one or more compartments or chambers for holding a battery. For dry cells, the holder must also make electrical contact with the battery terminals. For wet cells, cables are often connected to the battery terminals, as is found in automobiles or emergency lighting equipment. Where the battery is expected to last over the life of the product, no holder is necessary, and a tab welded to the battery terminals can be directly soldered to a printed circuit board. A good choice for you! About this item package includes - 1pcs strong plastic and best quality Color:Black 18650 Battery Holder Case DIY Lithium Battery Box Battery Holder with Pin PCB Mounting type. It can hold standard 18650 size batteries,either for alkaline or rechargeable batteries, the pin design is great for easily soldering and connecting.
