

White 3S 100A Lithium ion Battery Protection Balance Charging BMS Protection PCB Board

Slug: white-3s-100a-lithium-ion-battery-protection-balance-charging-bms-protection-pcb-board

TECHNICAL SPECIFICATIONS & SUMMARY

[Lithium Battery Protection Board] White 3S 100A Lithium ion Battery Protection Balance Charging BMS Protection PCB Board is 100A rated BMS protection board. This MBS protection board can protect the battery from over charge protection, Low discharge protection, Balancing charging. This protection board for 18650 lithium ion battery. Features of White 3S 100A Lithium ion Battery Protection Balance Charging BMS Protection PCB Board : 3s 100a BMS board 1200 watts max load Capacity Lithium Ion Battery Support Features/Specs: Single-cell battery overcharge protect voltage: 4.21 ~ 4.29V Single-cell battery overcharge protect recover voltage 4.14 ~ 4.24V Overcharge protect delay: 1.5 ~ 2.5S Single-cell battery over-discharge protect voltage: 2.72 ~ 2.88V Overcharge protect Current: 100A Over-discharge protect Current: 100A Over-discharge protect delay: 0.5 ~ 1.5S Temperature protect: Yes Disconnect protect: Yes Shortage delay: 100 ~ 600 uS Charging Current: 60A Ampere Balance: 60 mA Voltage balance accuracy: 4.14 ~ 4.24V Bms Cutoff voltage - 12.6v Bms low
